沈阳可林新材料有限公司
SHENYANG KELIN NEW MATERIAL CO. LTD

Shenyang Kelin New Material Company was established in 2007, which is one of the earliest tile grout manufactures in china. After ten years' development, now it has become the first large product research and development manufacturing enterprise, integrating research and development, production, sales, construction and after-sales, with an annual output value of nearly 100 million yuan. The company uses the International top technology equipment and Australia advanced production technology. Dr. JESSICA BRAGDON leads the research team and serves as the brand spokesman for KELIN.

Our main products: flexibility tile grout, waterborne tile grout, polyurea tile grout, colorful waterborne epoxy adhesive, epoxy tile joints adhesive, MS (Modified silane polyether) super glue, double pipe of colorful epoxy tile grout, polyurea tile grout and other healthy and environmental friendly tile grout products with multiple colors and plentiful styles. China Life Insurance Company underwrite the whole quality liability of KELIN products to protect the rights and interests of customers.

ABOUT CORING

Waterborne Tile Grout

Polyurea Tile Grout

Waterborne Epoxy Tile Grout

Colorful Epoxy Tile Grout

Mildew Proof Sealant

PRODUCT INTRODUCTION

Flexibility Tile Grout

Imported raw materials
Australia joint Company R&D
High strength & High brightness
Firm, Wear-resistant, Don't collapse
Aging resistance, Long-life
Mouldproof & Moistureproof
Easy to clean and operate
Environmental & Non-poisonous
Negative oxygen ions purifying formaldehyde

Waterborne Tile Grout

No solvent and additives, better Environmental
Cosmetic grade dye, Better brightness
Better construction and scrub
Australia joint research and development
High firm, Wear-resistant, Don't collapse
Aging resistance, Long-life
Imported raw materials
Mouldproof & Moistureproof
Negative oxygen ions purifying formaldehyde

Polyurea Tile Grout

Polyurea – which widely used in military industry
No yellowing and discoloration, even outdoor used
Australia joint research and development
Cosmetic grade dye, Vivid colors
Can be constructed on wet base
Fast curing, Same-day finish construction
Same life with tiles
Better mouldproof & moistureproof
Environmental & Non-poisonous

Mildew Proof Sealant

High end edge sealing product
Permanent mildew proof, No black edge
Solvent free
Good elasticity
Moisture proof,
Effectively inhibit the breeding of bacteria

Waterborne Epoxy Adhesive

Matte surface, Don't collapse, High fullness
Color from calcined sand, Fastness, Looks like tile
Australia joint research and development
Imported raw materials
High strength, High brightness, Wear-resistant
Aging resistance, Long-life
Mouldproof & Moistureproof
Easy to cleaning
Environmental & Non-poisonous

Epoxy Tile Joints Adhesive

Matte surface, Don't collapse, High fullness
Color from calcined sand, Fastness, Looks like tile
Australia joint research and development
Easy construction, Easy to clean
Imported raw materials
High strength, High brightness, Wear-resistant
Aging resistance, Long-life
Mouldproof & Moistureproof
Environmental & Non-poisonous
